This very informative book on Hedebo Cutwork was originally published in 1993. This is a review of the revised edition.

Written both in Danish and English it has a very good introduction and explanation of the origins of Hedebo Cutwork.

With many pages explaining the techniques involved it has very clear diagrams of every stitch needed to complete a piece of embroidery. It works through from Danish Buttonhole stitch to the filling in of circles and leaf shapes.

The photograph of the collar stitched in 1830-1840 is a beautiful example of the finest Hedebo Cutwork. Thank you Jytte for sharing this inspirational book with me. I now have a challenge to complete a small piece.
